AFFORDABLE...

Educational technology is dynamic, but the fundamentals remain the same. Specializing in small and medium size private education, ConEdTech's knowledge and experience can assist an educational facility in implementing, acquiring, and maintaining a technology program which reflects the educational mission of the school.

...RELIABLE...

From assisting in writing a computer literacy curriculum to wiring a network and implementing a laptop program, ConEdTech feels confident that the experience gained in educational technology will facilitate your technological transition into a competitive educational market.

**...MEETING.THE.
STANDARDS**

ConEdTech's focus is on meeting the technology standards with an eye on budgetary constraints. It is possible to have a high caliber program. Let ConEdTech partner with you to enhance the value of your technology program.
